WRAPPING MACHINERY

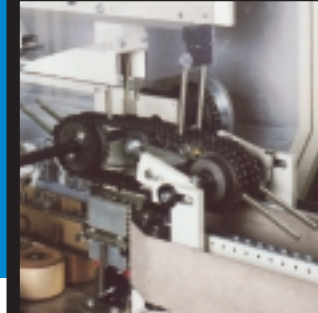

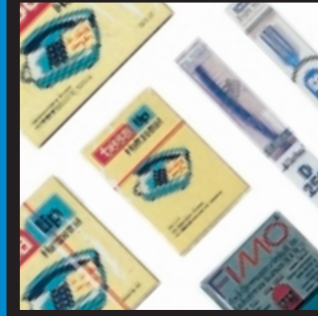

## CONSTRUCTION FEATURES:

- Rotary turret product handling
- Trailing edge seal
- Rugged construction
- Single main shaft drive
- Rotary or scissor guillotine
- Positive gripper control of the film
- Reciprocating film draw for higher speed applications
- Controlled product feed to the turret
- Continuous driven conveyor to the folding deck
- Continuous Teflon™ band end seals
- PLC control
- Rapid product changeover

## OPTIONAL FEATURES:

- Tear tape with tab
- Print registration
- Coding (inkjet/laser for high speed operation)
- Twin film reels
- Auto splice
- Manual splice deck
- Leaflet insertion
- External collating options
- Vibration device for granular products
- Levelling device for powder products
- Over height pack rejection
- Paper with hot melt option
- Jumbo film feed
